WHAT DO STUDENTS SAY ABOUT THE SPEAKING CENTER...

“"My favorite part of the Speaking Center is their honesty. They truly want you to improve as a speaker, and the best way to improve is to hear honest feedback.”

“I first used the Speaking Center when I was taking a public speaking class. Later on, however, it became clear that this was a resource that I could utilize no matter what class an assignment was for.”

“I’m confident that meeting with consultants at the Speaking Center improved my performance on specific assignments, but it also improved my communications skills overall.”

“The Speaking Center consultant I met with helped me realize what I was doing wrong with my speeches, but more importantly helped me figure out how to fix those problems.”

“What impresses me most about the Speaking Center is how versatile it is. No matter what stage of the process you’re at - whether it’s brainstorming, drafting, revising, delivery - the Speaking Center can help you out.”

COE COLLEGE SPEAKING CENTER

The Speaking Center is a place where ideas are pooled together and given form in speech. You take projects and turn them into presentations.
