

Parent's Night of Science **Wednesday, November 20, 2013**

Visit our science facilities on your own—just parents and faculty—for in-depth information about the world-class opportunities that exist at Coe College for your child.

- 6:45 PM** **Registration & Welcome** **119 Peterson Hall**
- 7:00 PM** **The Sciences at Coe**
 Prof. Steve Feller, Physics
 Prof. Paula Sanchini, Biology
 Prof. Steve Singleton, Chemistry
Ground-breaking research and a close connection to the faculty are the norm for students at Coe. As these three faculty members outline the opportunities available both in and out of the classroom, attendees will also gain perspective on the student-centered approach that exists on our campus.
- 7:40 PM** **Seeing is Believing**
A \$13 million renovation, state-of-the-art laboratories and faculty committed to teaching undergraduates...just a few of the highlights of a science major at Coe. Faculty will discuss all of these items and more as they provide tours of the departments.
- 8:00 PM** **Ask the Experts**
Continue your conversations, inquire more deeply about outcomes of our graduates and delve into research topics as you chat with faculty hosts in a casual question and answer setting. Admission staff will also be on hand to answer general questions about the admission process and the college.

Not already familiar with Coe's campus?
