

Sustainability at Coe

Coe offers mixed recycling for all paper and plastic. Bins are located throughout campus

Coe's Environmental Club initiated planning, fundraising, and implementation for a permaculture garden on campus.

More than **6,000 pounds** (greater than 3 tons) of computer and network equipment are recycled each year

Coe College is committed to environmentally friendly practices and sustainability

Coe decreased its carbon output by **19%** after the college switched from coal to natural gas to heat the campus

Coe is **1 out of 6** Iowa institutions participating in the EPA's Food Recovery Challenge

The ARC's 2017 Renovations included updated, energy efficient appliances

Helping conserve both water and energy

Coe was recently awarded a grant from Keep America Beautiful for additional recycling bins. Coe was **1 of 37** colleges recognized nationwide

Coe has been selected for The Princeton Review's **GUIDE TO GREEN COLLEGES** four years in a row!

Hickok Hall's 2016 Renovations included updated, energy efficient appliances

Helping conserve both water and energy

Coe offers a **FULL TUITION Scholarship** to incoming first-year students who show passion and concern for our environment
