Dear Kohawks,

We have a very important and exciting update! We are happy to report that **we have a Physician Assistant (PA) in the Health Services clinic taking appointments, starting tomorrow, Tuesday, November 2nd!**

Our Physician Assistant and Registered Nurse will be in the clinic on **Tuesday through Friday, from 1:30 - 3:30 pm**. Students should schedule an appointment [here](#). It is encouraged that students schedule appointments rather than walk-in to the clinic to avoid frustration if appointments are full for the day.

What is a physician assistant? A physician assistant (PA) is a licensed medical provider that can diagnose and treat illnesses as well as prescribe medication, perform physical examinations, order labs and develop treatment plans.

All of that is in addition to what our registered nurse (RN) can do. Remember, an RN can do things like administer some medications and/or injections, provide education, initial assessment and referrals, check vital signs, draw blood, and conduct on-site testing.

For those that haven't visited Health Services yet, we are below the P.U.B. on the side facing the cafeteria. Stop by during our PA's & nurse's hours to see the place, get information, or just say hi!

If you have any questions, please feel free to email us at [o-healthservices@coe.edu](mailto:o-healthservices@coe.edu).

Have a great week, Kohawks!
