

COE COLLEGE

Bookstore Basics

- We will help your student get the right books when they come in the store with their schedule. The advantage to buying from us: the right books and no-hassle returns, even if your student drops the class or the professor changes their mind.
- We offer payment options—cash, check, credit card, debit card and in-store gift cards. For your protection, **we cannot accept credit cards over the phone.** The name on a credit card must match the person using the card and ID is required to use an in-store gift card.
- You can order through the bookstore online at: www.coe.collegeshop.com. Orders can be picked up in the store with no charges for shipping. One advantage to website ordering is that you get a copy of the receipt emailed to you for your records. If your order is successfully placed, you will receive a confirmation email with an order number. Please have the order number handy when contacting the bookstore.
- Over 1/2 the books in the store are rentable. Rental books can be used like any other book. You can highlight and write in the margins. The book just has to be returned by the last day of finals in good condition. Rental accounts are easy. You just need a photo ID, must be at least 18, and have a current credit card to be swiped as collateral.
- We employ students. If your student is interested in a part-time job that doesn't come out of work-study funds, our openings are posted to www.follettcareers.com
- If you have questions, call or email.
