

FOUR-YEAR PLAN

The following represents the path for pursuing a Bachelor of Arts in Business Administration with a concentration in flight operations. Flight operations students will work in coordination with their academic advisor to confirm eligibility for the Restricted Airline Transport Pilot (R-ATP) certificate and ensure timely completion of all required coursework and program requirements.

We encourage flight operations students to continue flight training over the summer months when possible to help maintain proficiency and stay on pace with their training progression.

General Education Courses | **Business Major Courses** | **Aviation Studies Courses** | **Flight Operations Courses**

	FALL TERM	SPRING TERM
FIRST YEAR	First Year Seminar (1.0) Principles of Accounting I (1.0) Introduction to Aviation (1.0) Private Pilot Ground (.75) Private Pilot Lab I (.5) 4.25	Elective (1.0) General Education (1.0) Principles of Accounting II (1.0) Statistical Analysis (1.0) Private Pilot Lab II (.25) 4.25
SECOND YEAR	Principles of Macroeconomics (1.0) Principles of Meteorology (1.0) +Lab (.2) Instrument Pilot Ground (.75) Instrument Pilot Lab I (.5) 3.45	General Education (1.0) Principles of Management (1.0) Principles of Microeconomics (1.0) Aviation Law (1.0) Instrument Pilot Lab II (.25) 4.25
THIRD YEAR	Elective (1.0) General Education (1.0) Applied Aerodynamics (1.0) Commercial Pilot Ground (1.0) Commercial Pilot Lab I (.5) 4.5	General Education (1.0) Aviation Safety (1.0) Human Factors (1.0) Commercial Pilot Lab II (.5) 3.5
FOURTH YEAR	Principles of Marketing (1.0) Aircraft Systems (1.0) Topics in Aviation (1.0)* Flight Instructor Ground (1.0) Flight Instructor Lab (.5) Flight Instructor Instrument (.5)* 5.0	Elective (1.0) Principles of Finance (1.0) Aviation Seminar (1.0)* Multi-Engine Lab (.5) Multi-Engine Instructor (.5)* 4.0

*Strongly recommended, but not required for the Flight Operations concentration
